

Theft of Goodies May Be Cue for BIG TV Party

Some Torrance resident must be planning the television party to end all teevie parties. That, on the surface, is what the theft of eight cases of peanut butter, two cases of marmalade and four cases of walnuts looks like.

Robert Rickabaugh, salesman, reported that that amount of merchandise, worth \$130.32, was stolen from his truck Thursday night while he was parked to make a call.

sweepers each day pick up tons of miscellaneous refuse, which have been left on city streets.

Also engaged in the collection and disposal of combustible refuse in the city's Park Department, which collects a number of truck-loads of grass, shrubs, and tree trimmings each day from the city's parks, playgrounds and the thousands of trees along the city streets.

In all, the problem of collection and disposing of combustible refuse by city forces is a major one. To continue to furnish the excellent service to the citizens without special levy requires the cooperation of all. The city asks that each citizen cooperate by placing the refuse in suitable containers and that tree trimmings of considerable length be cut and tied into bundles not over 6 feet in length and 15 inches in diameter, and that this refuse be placed in the alley, or at the curb line, on the evening before the pick-up schedule. If this is done the task of collection will be greatly simplified.

MEET AN OLD FRIEND ON "MAIN STREET"

For more than 70 years, public telephones have been on the job in the West to bring you service when you need it

One of the oldest landmarks along the "Main Streets" of the West is the familiar blue and white sign of the public telephone. And it doesn't just happen that you're never very far from one of these signs when you want to make a call. We now have some 92,000 public telephones at work in the hundreds of communities where we operate locally here in the West—and they've been carefully placed to make sure a telephone is always readily available to you away from your home or place of business.

You've just arrived in town—and, of course, you depend on the telephone to help you contact relatives and friends. That's why we've put public telephones in all bus, rail and air terminals—as well as drug stores, filling stations, hotel and theater lobbies and a host of other handy places. From any of these telephones you can be linked—swiftly and efficiently—with any telephone, anywhere. And we're installing even more public telephones every day.

Your telephone is one of today's best bargains

Making sure good telephone service is available when and where it is needed is just one more way we work to make your telephone ever more useful and valuable to you.
